Färgblock - colour block in English – is our new ceramic collection developed in collaboration with the designer and colorist Tekla Evelina Severin @teklan.

Tekla was asked to take part in this project due to her extraordinary ability with colour dynamics. In fact, her favourite quotation is: "Colour is never absolute, it is always relative, and it is what you put next to it that defines it".

Färgblock was born from a desire to create a lively, versatile and highly appealing collection that offers maximum freedom of expression thanks to playful colour effects, contrasts and tone on tone harmonies.

The inspiration for developing the colour palette comes, as always with Tekla, from multiple sources: images acquired during travels around the world; historic locations veiled in the positive nostalgia of bygone atmospheres; and natural landscapes where the light creates constantly changing colour nuances according to the time of day.

Färgblock is available in a 5x15cm porcelain stoneware format with a gloss finish that combines the technical performance of stoneware with the powerful and contemporary aesthetic impact of a wide colour range. Decisive contrasts and delicate tone on tone juxtapositions enable fillers and grouting to become important tools offering multiple possibilities for

planners and designers.

Färgblock - in inglese color block – è la nuova collezione ceramica sviluppata in collaborazione con l'interior designer e colorist Tekla Evelina Severin @teklan. Tekla è stata coinvolta in questo progetto per la sua straordinaria propensione per le dinamiche del colore, la sua citazione preferita: "Il colore non è mai assoluto, è sempre relativo, ed è ciò che ci metti accanto che lo definisce".

Färgblock nasce dalla volontà di creare una collezione vivace, versatile e di grande appeal, in grado di offrire massima libertà espressiva grazie a giochi di colori,² contrasti o armonie tono su tono.

L'ispirazione per lo sviluppo della palette cromatica viene, come sempre per Tekla, da molteplici fonti: immagini acquisite durante viaggi nel mondo; luoghi storici avvolti da atmosfere passate velate da una nostalgia positiva; paesaggi naturali dove la luce, a seconda dell'ora del giorno, crea sfumature cromatiche sempre mutevoli.

Färgblock è disponibile in gres porcellanato nel formato 5x15cm con finitura lucida, capace di unire alle performance tecniche del grés, un impatto estetico forte e contemporaneo grazie all'ampia gamma cromatica. Contrasti decisi o delicati accostamenti tono su tono, nei quali anche stucchi e fughe diventano moltiplicatori di possibilità, veri strumenti a disposizione di designer e progettisti.

FÄRGBLOCK

Färgblock - en anglais color block - est la nouvelle collection céramique développée en collaboration avec l'architecte d'intérieur et coloriste Tekla Evelina Severin @teklan.

Tekla a été impliquée dans ce projet pour son extraordinaire passion pour la dynamique de la couleur, sa citation préférée : "La couleur n'est jamais absolue, elle est toujours relative, et c'est ce que vous y mettez avec qui la définit". Färgblock est née de la volonté

de créer une collection vivante, versatile et très attrayante, capable d'offrir une liberté d'expression maximale grâce au jeu de couleurs, de contrastes ou d'harmonies ton sur ton.

L'inspiration pour le développement de la palette de couleurs provient, comme toujours pour Tekla, de multiples sources : images acquises lors de voyages autour du monde ; des lieux

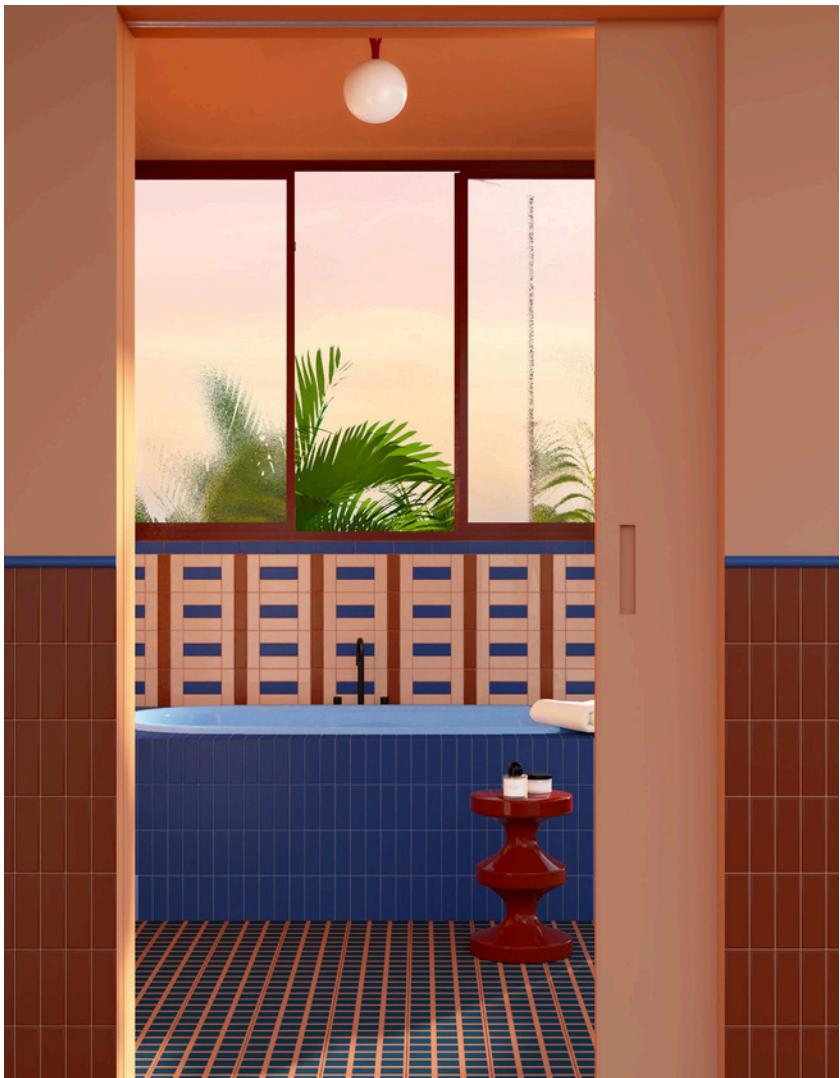

historiques entourés d'atmosphères passées voilées par une nostalgie positive ; des paysages naturels où la lumière, selon l'heure de la journée, crée des nuances de couleurs toujours changeantes.

Par ailleurs elle ajoute également que pour tous les êtres humains en général, il est très important de vivre dans un environnement coloré pour se sentir à l'aise et trouver son bien-être psychophysique.

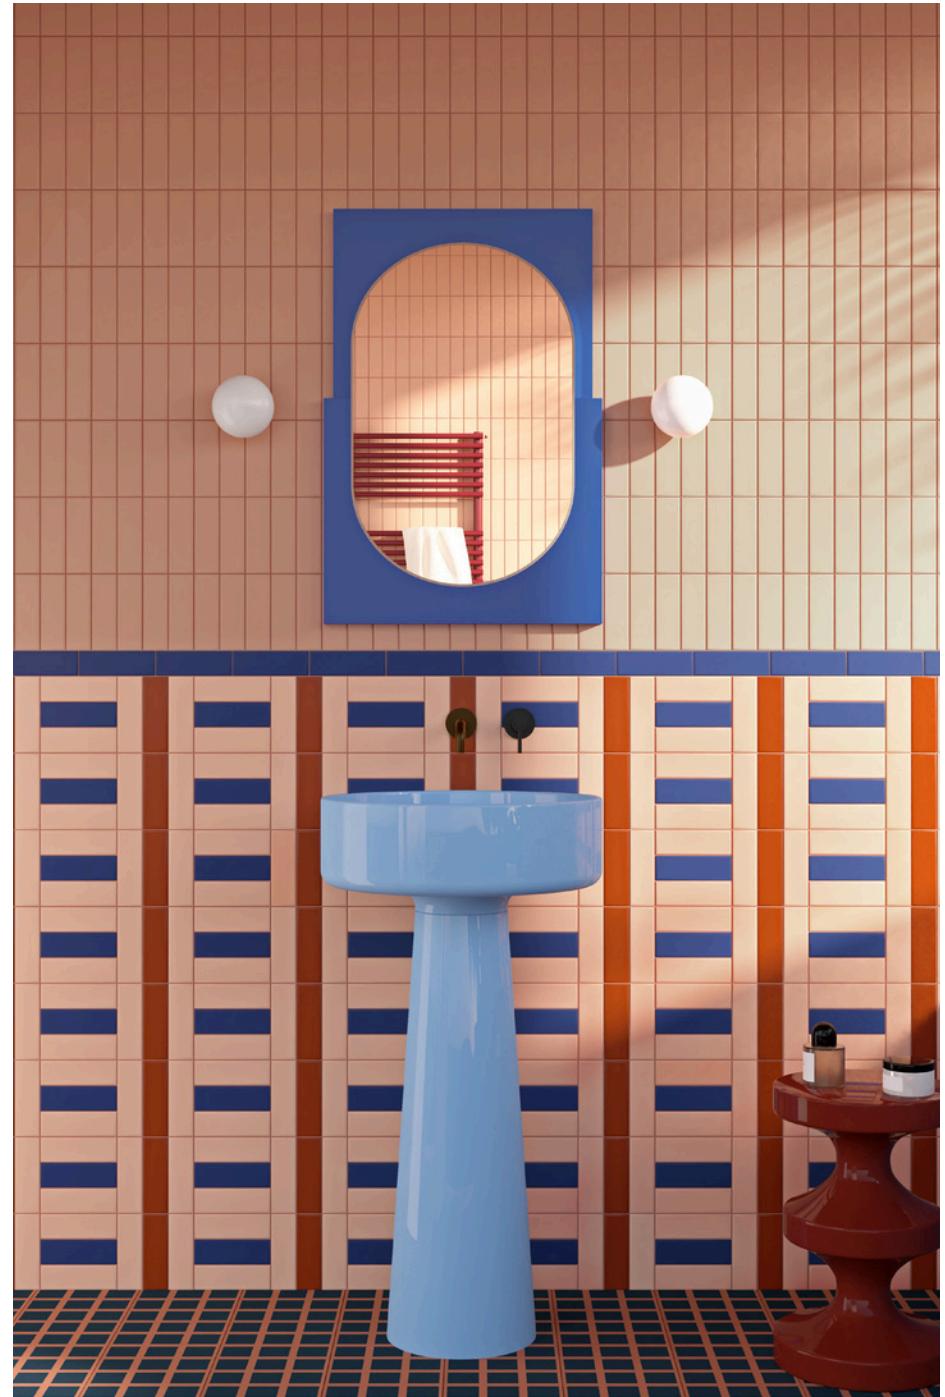

Färgblock est disponible en grès cérame au format 5x15 cm avec une finition brillante, capable de combiner les performances techniques du grès avec un impact esthétique fort et contemporain grâce à la large gamme de couleurs. Forts contrastes ou délicates combinaisons ton sur ton, où même les joints deviennent des multiplicités de possibilités, de véritables outils à la disposition des designers et concepteurs.
